*Investors should consider the investment objectives, risks, charges and expenses of the Funds carefully before investing. The prospectus contains this and other information about the Funds. You may obtain the prospectus by visiting [www.cmadvisorsfunds.com](http://www.cmadvisorsfunds.com) or calling 888.859.5856. The prospectus should be read carefully before investing.*

## PERFORMANCE

As of 6/30/2017

	Total Returns		Average Annual Returns				
	3 Mo.	YTD	1 Yr.	3 Yr.	5 Yr.	10 Yr.	Since Inception*
CMOVX	-7.72%	-18.54%	1.33%	-7.46%	3.37%	N/A	2.37%
Russell 2000 Value Index ADJ	0.67%	0.54%	24.86%	7.02%	13.39%	5.92%	10.19%

Performance data quoted represents past performance. Past performance does not guarantee future results. All performance assumes reinvestment of dividends and capital gains. The investment return and principal value of an investment will fluctuate so that investor's shares, when redeemed, may be worth more or less than their original cost. Current performance may be lower or higher than the performance data quoted. The Fund imposes a 1% redemption fee on shares redeemed within 180 days of their purchase. See the Fund's current prospectus for more information on the Fund's redemption fee. The performance information above does not reflect the imposition of the redemption fee. For performance information current to the most recent month end, call 1-888-859-5856. The expense cap for the Fund contractually limits ordinary operating expenses to not more than 1.25% (exclusive of the Fund's Rule 12b-1 fees) of the average daily net assets of the CM Advisors Small Cap Value Fund until July 1, 2017.

*The Russell 2000 Value Index ADJ measures the performance of the small-cap value segment of the U.S. equity universe. It includes those Russell 2000 Index companies with lower price-to-book ratios and lower forecasted growth values. The Russell 2000 Value Index is constructed to provide a comprehensive and unbiased barometer for the small-cap value segment. The Index is completely reconstituted annually to ensure larger stocks do not distort the performance and characteristics of the true small-cap opportunity set and that the represented companies continue to reflect value characteristics. It is not possible to invest directly in the index.*

Investment in the Fund is subject to investment risks, including, without limitation, market risk, interest rate risk, management style risk, business and sector risk, small cap risk, credit risk, maturity risk, risks related to other equity securities and other investment companies risk. For more information about the Fund, including the Fund's objectives, charges, expenses and risks (including more information about the risks listed above), please read the prospectus.

**An investor should consider the investment objectives, risks, and charges and expenses of the Fund carefully before investing. The prospectus contains this and other information about the Fund. A copy of the prospectus is available by calling 1-800-664-4888 or writing the advisor at 805 Las Cimas Parkway, Suite 430, Austin, Texas 78746. You may also call the Fund directly at 1-888-859-5856. The prospectus should be read carefully before investing. The information presented on this page is not an offer to sell or a solicitation of an offer to purchase the Fund. While Fund performance is compared to an index, it is not possible to invest directly in an index.**

The **Weighted Average Market Cap** is an investment portfolio or stock market index weighted by the market capitalization of each stock in the portfolio or index. The **Median Market Cap** is the midpoint market capitalization of the stocks in an investment portfolio or index. The **Price-to-Earnings Ratio (P/E)** is a valuation ratio that compares a company's current share price to its per-share earnings. The forward P/E uses forecasted earnings for the P/E calculation. **Estimated 3-5 year Earnings Growth** is the 3- to 5-year forecasted earnings made by a consensus of the analysts following the public companies in the strategy, composite, or index. **Alpha** is the excess return of the fund relative to the return of the benchmark index. **Beta** is a measure of the volatility, or systematic risk, of a security or a portfolio in comparison to the market as a whole. **Turnover Rate** is the percentage of a mutual fund or other investment vehicle's holdings that have been "turned over" or replaced with other holdings in a given year. **Enterprise Value-to-Sales (EV/Sales)** is a valuation measure that compares the enterprise value of a company to the company's sales. **Price-to-Book Value** is a ratio used to compare a stock's market value to its book value. The **Total Debt to Capital** is a measurement of a company's financial leverage.
